Office Seekers Start Filings Here Tomorrow

Spirited Races Seen As Many Announce Intentions

Open season for county politics got underway formally on Thursday with the commencement of the period in which nomination papers for various state, county and township offices at stake may be filed with County Clerk Elmore B. Hinman.

The nomination filing period will continue to Saturday, June 23, the final deadline.

Five county offices—sheriff, clerk, district attorney, assessor and controller, five justiceships of the peace and the state assembly and senate seats from this county will be at stake in the August primary election.

Proposed recall of Supervisor Albert Witt of the First District and the projected San Mateo county harbor district bond issue may also be placed on the ballot at that time.

Strenuous contests are in prospect for practically all of the elective county offices this year.

The sheriff's race apparently will draw the greatest number of entrants who will oppose Sheriff James J. McGrath, who is planning to run for re-election although he has not yet made his announcement.

Already announced candidates are Chief of Police John J. Harper of Burlingame, Harry Arnold, Redwood City contractor; Constable S. A. Landini of Colma and Col. W. Scott Smith of Menlo Park. Cornelius Callaghan, former deputy sheriff, and Chief of Police J. E. Farrell of Atherton, former undersheriff, are other posible entrants in the contest.

Eugene Cerqui, former deputy clerk, so far is the only candidate who has announced himself for the pose now held by Elmore B. Hinman, who is expected to run again. Clement Nash of San Mateo is also rumored as a candidate.

Retirement of District Attorney Edmund Scott is expected to throw the contest for that office into a wide-open fight. Edward Hoffman of San Mateo has issued his formal announcement, but several others are expected to enter the race before the nomination deadline is reached, possibly including Gilbert D. Farrel of Redwood City, Justice Percy W. Jackson of San Mateo and Police Judge R. A. Rapsey of San Bruno.

Julius Smith of Redwood City is reported as an opponent for Assessor Daniel P. Flynn.

Cantroller Edward Stack has already announced himself for re-election, with J. C. Beard, former Burlingame postmaster, formally out against him.

Assemblyman Frederick Peterson is again out for that office, while Senator Harry Parkman is again expected to be a candidate.

Justise contests so far had resolved themselves into any clear cut contests, with the races beclouded in the First and Fourth Townships because of the consolidation of the two present justiceships in each district into one under the new charter.

Tanforan Will End Successful Meet Tomorrow

Marked by a week of feature events, which proved among the most gala and best attended in the history of the track, Tanforan today drew close to the barrier in the spring meeting, which began two months ago. Tomorrow the horses will go to the post in Tanforan's Au Revoir, featured by the Au Revoir Handicap.

The farewell tomorow will climax a week of interesting events at the San Bruno track.

Today J. W. Marchbank, managing director, paid high tribute to the support the track has received during the present meeting. He said the public clearly has demonstrated that it wants thoroughbred racing, conducted upon a high plane. Never has Tanforan had a more promising or a more important meeting than the one now drawing to a close, he added. By this meeting was guaged, he said, public opinion regarding horse racing. The results have been highly satisfactory, he concluded.

Members of the California Horse Racing Board paid marked tribute to the Tanforan meeting, and to Marchbank's conduct of the racing. All members expressed satisfaction with the program, and the whole conduct of the track, and added their opion that it had proved a decided step forward in making California one of America's most important turf centers.

Coast Asks Relief Projects Under State Emergency Funds

Unable to compete in the coast pea fields against Mexicon labor, unemployed citizens of the coastside section today had appealed to the board of supervisors to secure funds to undertake a number of state emergency relief administration (SERA) projects.

A committee, headed by George Azevedo of El Granada, presented a petition to the board here yesterday to secure the state relief funds. Supervisor Manuel Francis, Half Moon Bay, backed up the request.

George Dunn, Half Moon Bay publisher, said white help could not be used in the pea fields because of the destruction which results to the plants from inexperience at picking. Dunn said a movement is on foot to have white help acquire the experience so it could be used to harvest next year's crop.

Edward Brady, president of the building trades council, said organized labor was not entirely satisfied with the way the coast labor situation had been handled by the arbitration board.

J. F. Cambiano, carpenters' union representative, declared that labor had been fighting against the condition such as exists on the coastside for years.

The remarks of the labor leaders came as a result of a statement by Charles Gerber, Burlingame, that labor assertedly had stood "idly by" and permitted outside workers to take the coast jobs.

The coast labor situation came up during a discussion of a proposal to pay Dr. R. D. Borley, Half Moon Bay, the sum of $150 for services rendered to the Mexican laborers.

The board, upon motion of Supervisor Poole, seconded by Supervisor Witt, ordered the claim paid.

Next the board ordered the petition for SERA funds referred to the relief committee upon motion of Supervisor Francis and second of Supervisor Rosalie Brown, San Mateo.

Quiz Into CWA Is Suggested

Peninsula Clubwoman Says Matter Should Be Cleared Up

Stating that the "matter must be cleared up," Mrs. Robert McWilliams, Hillsborough clubwoman and wife of Robert McWilliams, prominent attorney, today urged the board of supervisors to refer the CWA committee charges of union favoritism to the San Mateo County Grand Jury.

This move was opposed by Mrs. Ella Chase of Lomita Park, who said the "honesty of purpose" of the relief committee in making the findings should not be questioned and that the grand jury inquiry was needless.

Mrs. Chase said that the request of the relief body that J. F. Cambiano of San Mateo, union agent, resign, should be met by the board.

In her plea, Mrs. McWilliams said that the public had a right to know if any CWA rules had been violated.

Supervisor Rosalie Brown expressed her belief that in appointing Cambiano the board had followed the intentions to have organized labor represented on the relief committee.

Mrs. Chase defended labor's right to representation but said that she did not believe that any dues should be collected on relief projects.

The letter of Sam D. Merk, former relief director, attacking the relief committee's findings, which The Tribune reported upon Saturday, was read and filed.

Dr. C. V. Thompson, board chairman, said he believed the request of Mrs. McWilliams belonged more properly before the district attorney than the board.

Tangle on Kinship Goes to Court For Answer

Hearing of one of the issues in the strangely tangled contest of the will of John Gill, Daly City man who died on March 22, 1933, leaving an estate valued at $42,000, was commenced before Superior Judge Maxwell McNutt here yesterday.

The issue involved is the determination of the relationship of Viola and Effie Cotgiar of Alameda, two of the contestants, to the deceased man. They claim that they are the daughter and granddaughter of Gill by an alleged wife, Mary Ellen Gill, now deceased.

One full day has already been consumed in hearing the issue, and the matter was continued at the conclusion of yesterday's session to June 14.

Three other contestants to the will, which left the entire estate to Mabel Greer of Daly City, who acted as Gill's housekeeper, are three women who allege themselves to be sisters, Edith Gill, Maude Elizabeth Jones and Mabel Willoughby. A claim has also been filed against the estate by Helen Gill Dannert, who claims to be a divorced wife.

The will naming Mabel Greer as sole legatee was drawn three days before Gill's death. Augusta Burkett was named executor, and her petition for probate asserted that a sister, Edith Gill of London, was the only known surviving relative.

Harry Arnold Enters Sheriff Contest Today

R. C. Contractor Will Oppose Incumbent In Primaries

Harry W. Arnold, well-known Redwood City contractor, today announced his intention to enter the race for sheriff of San Mateo county.

Arnold has been a resident of San Mateo county for the past 18 years and a taxpayer for 14 years. He has two sons, Harry L. Arnold and Leon W. Arnold, who are graduates of Sequoia Union High School.

In his campaign announcement, Arnold said:

"Many of my friends for the past six months have been urging me to run for the office of sheriff. After giving careful study to the conditions that exist in this county, I see that there is a chance for big improvement in the efficiency of the sheriff's office.

"One of my intentions is to effect a much wider spread of police protection throughout the non-incorporated areas of the county and at the same time to create a real economy of operating costs. This I will explain in detail later on in my campaign.

"Civil experience is a very important factor in the sheriff's office and for the past 30 years I have been engaged in this type of work.

"The people of San Mateo county are demanding a 'new deal' in the sheriff's office and I am confident that I will satisfy them in every way, in an efficient office and run with the greatest economy. If the people elect me I pledge to surround myself with a staff of men that will be a credit to any county in the state."

$15,000 Price Is Paid For Playground On Coastside

Deal for the purchase of 928 acres of virgin timberlands in the wooded coastal area of Southern San Mateo county was completed here today by which the Young Men's Christian Association obtains a future playground for its camping and outdoor activities.

Sale of the land to the "Y" was made by Mrs. S. M. Black of Red Bluff, who has been holding the property for 14 years for just such a purpose. She has been actively interested in "Y" work, according to Wilbur Doxsee, of the San Mateo County Title Company, which handled the deal.

The purchase price is reported at $15,000.

Redwood City, Palo Alto, Burlingame and San Francisco units of the "Y" participated in the deal, with the title going to the San Francisco corporation.

The property includes the Jones and McCormick gulches and includes 250 acres of virgin redwoods adjoining the butano holdings of the Western Shore Company.

Part of the property is now being used for dairy purposes and it was the site of a former mill.

The "Y" will take possession at once, but will not undertake immediate development as it now has a suitable camp in Memorial Park.

Girl Weds, Then Tells of Troth To Another

Shepherd, hearing that the announcement to the Allen boy was due the next morning, said to Miss Chappel: "Marry me instead." She did. Then came the question of what to do about the Allen engagement. She decided to let the announcement be made, hoping to keep her marriage to Shepherd a secret. But the word got out.

Menace of Special Interests Hit in Talk By Dr. T. J. Kreps

PALO ALTO, May 28 (Special)—"Let us return to the good old-fashioned ideals of laissez faire and democracy . . . We have got to be alert to protect ourselves against special interests . . . The sole question of policy should be that of social welfare . . ."

These statements are salient excerpts from the talk of Dr. Theodore J. Kreps, professor of statistics in the Stanford Graduate School of Business, given at the House here. He was speaking on "Danger Spots in the Present Economic Situation."

Dr. Kreps was an advocate of laissez faire—

But to him laissez faire does not mean anarchy; it does not mean that government should leave business alone; nor does it mean the "lazy fairy" theory.

"Laissez faire means, and always has meant, that government should compel all individuals to let one another alone and refuse to let itself be used as an agent of any group. It is the function of government to prevent force and fraud," he explained.

It is alleged, the speaker remarked, that the New Deal takes away individual freedom.

"Whose freedom?" he asked. Yours or mine? Or the freedom of the stock market looter and the maker of bad food products or fraudulent drugs?

"If the stock market bill should go through as it was drafted, would it curtail your freedom or mine?"

Then, too, Dr. Kreps championed the return to democracy.

"Our revolutionary forefathers defined it as equality before the law. 'ALL men are created equal—'

"By 1834 democracy was broadened to include equality to opportunity to get an education."

"What is our economic system for? Why are these grain fields, mines and all other benefits provided? For the few or for all?

"The only sense in our system is that it produces for everyone—to give everybody an opportunity to get a part of the abundance that exists."

With these comments the speaker proceeded to express himself on the following topics in the following way, at times in answer to questions:

"I can't see a single advantage to you and me in raising the price of silver. Silver producers maintain a million dollar lobby to increase the price of that metal. Who wouldn't spend $1,000,000 to get $50,000,000? And that is what will happen if the price of silver is boosted four cents for everyone. The silver producers are helping themselves to the United States treasury."

"The munitions makers stopped one world conference. We are in danger of getting into a world war through the activities of the munition makers. We had better hurry up and take munitions out of private hands. There is a distinct danger there."

"Who has been spending $300,000 a month to prevent the stock market bill from passing? Wall Street. The danger is that we will be apathetic and have the same old grand piracy we had before 1929. Write your senators and congressmen to vote for that bill or not show up for election again."

"They say the securities control measure stopped recovery, and that Great Britain has made more recovery than we have. But the United States got the idea of its securities act from Britain, which has a stricter law than the one proposed here. There must be something defective in the Wall Street logic. The truth is that more than 90 per cent of the industrial issues offered in the past seven years could have been purchased at discounts of from 10 to 40 per cent if buyers had waited until the promoters had unloaded. The suckers haven't been biting recently. That is the real trouble."

"The Tugwell drug control bill is absolutely all right, except for a few minor points. The opposition to it comes from profit-interested groups."

"The depression was worst right here in the United States. We should expect it to take a little longer to recover. In Britain and Canada there was not a single bank failure."

"We should control our productive capacity. The oil industry should be made a matter of economic control.

"It is ridiculous that a person should inherit the management of a great industry controlling the destinies of perhaps thousands of people simply because of a blood relationship."

"There is no excuse for any bank failure. We have a wrong system. Bankers should be specially trained and licensed."

"The same intelligence that made our technological inventions should be used in our social inventions."

"Whatever may be said of the Brain Trust, they are not trying to make a profit for themselves, like the silver gang, the stock promoting gang, the patent medicine gang, and the bonus gang—all special groups."

"There will have to be a ceiling level of income and inheritance. These matters can be controlled by taxation. There is no economic reason for high salaries. An executive can run a business into bankruptcy at a salary of $60,000 as well as at $120,000.

"It is not necessary for government to operate everything. But there should be proper control of banks and industry — economic planning. If industry cannot be controlled, then let us have public ownership."

"The time is bound to come when working people will be given the same freedom of organization and freedom of speech that is granted to employers. The unions in the San Francisco dispuite should be recognized. Autocrats are trying to dominate where they have no business to control."

"I believe in freedom of the individual to express himself, but when newspapers sell false commodities I condemn them."

"Adult education is important. As a phase of education there should be bulletins in which there is no advertising. All points of view should be expressed. If you haven't a Communist in your midst, get one. Let us hear from the big business man. I can't see any way for democracy to succeed if we don't have full freedom of discussion."

"Put lobbyists in congress—and label them so we will know who they are."

Fixed Salaries In County Set At $400,000

$90,000 Hospital Item Is Largest Sum In Schedule

San Mateo county's 1934-35 salary ordinance, as adopted by the board of supervisors yesterday, calls for fixed salaries in excess of $400,000, a compilation of departmental salary schedules revealed today. The total as it now reads is $403,843. This is approximately the same as last year.

To the salary total must be added the wages of the per diem employes of the engineering and road departments of the county, which can only be determined by the number of projects which will be undertaken in the new fiscal year.

Leading the departmental salary schedules is that of the Community Hospital, which will claim $90,007.

Other outstanding salary totals are those of public health, $20,040; county assessor, $22,188; county clerk, $23,300; surveyor-engineer, $31,380, and sheriff, $36,540.

The tax collector's office will claim $16,760 in salaries; the controller's office, $15,460; the district attorney, $13,690, and the relief home, $10,608.

Other departmental salary totals are:

County executive's office, $10,500; county library, $10,200; supervisors, $9,900; recorder, $8,900; agricultural commissioner, $8,850; courthouse upkeep, $8,100; treasurer, $7,480; justices of the peace, $5,250 and $6,540.

School superintendent, $6,065; social service, $6,000; coroner and public administrator, $5,300; planning commission, $5,400; purchasing agent, $4,700; superior judges, $4,000; purchasing agent, $4,25; building inspector, $3,340; probation officer, $2,400; sealer of weights, $2,400 juvenile home, $2,100; constables, $1,320; Memorial park, $1,200.

No changes in existing salaries were made by the supervisors. In some instances increases were provided after January 7, 1935, as for instance the office of district attorney. The prosecutor will be forced to abandon private practice after that period. The salary is increased for this office from $3,500 to $4,800.

The sheriff's budget shows an increase over last year because of assuming control over the five constables who will remain under the charter. The pay of the contables remains at $1,980, which compares with $2,280 paid seven deputies in the sheriff's office. The constables are cut from seven in number to five.

Seven justices are also reduced in number to five after the first of the year and the top salary of $2,100 for some of these officers is retained uniformly for all.

Barney Ross Eyes Dundee's Crown

NEW YORK, May 31 (AP)—Barney Ross is wondering now whether the middleweight championship couldn't be added to his list of titles.

The young Chicagoan, lightweight titleholder for the past year, set one ring precedent when he outpointed Jimmy McLarnin on Monday night and captured the Irishman's welterweight crown The next bigger game would be Vince Dundee, ruler of the 160-pound class.

Soft Water Is Economical in Laundry

Household laundry costs can be materially reduced by using soft water instead of hard water.

Water is very deceptive in appearance—it may look clear and pure and yet contain hidden impurities. The most troublesome of these are compounds of lime and magnesia.

Water which contains hardness wastes a great deal of soap because the lime and magnesia always combine with soap and change it to "curds."

To prevent waste of soap and to improve the quality of laundry work and ot lergthen the life of linens, garments, etc., it is necessary to use water from which all hardness has been removed.

With soft water instead of hard water one can count upon a 50 per cent saving in soap. Life of washables will be very materially increased.

Modern homes are now being equipped with water softeners to assure the household of an unlimited supply of soft water for all purposes. The use of soft water in the laundry is a real step to household economy.

In medieval, as well as in ancient times, honey, instead of sugar, was used to sweeten foods.

Adj. Thomas H. White was in charge of the program, Post Commander Bernard Larrecou introduced the speakers. Floyd Beach was chaplain for the American Legion and George Murray was the Native Son chaplain. Wreaths and flags were blessed and placed on each separated Native Son and war heroes grave. Pres. John Facchino of the N. S. G. W. gave an inspiring talk which was well received by the numerous people gathered for the occasion. Commander Bernard Larrecou read an inovation. After the pilgrimage to the graves, taps were sounded, and the ceremony concluded.

The American Legion Auxiliary placed a wreath and an American flag on the placque dedicated to those who served at Camp Fremont during the late war. The flowers and flag were donated to the unit by the post, and the ladies were assisted by the local Boy Scouts troop as well as the boys of the American Legion in this ceremony.

Don't forget the 4th of July picnic and barbecue given at the Menlo Park picnic grounds by the American Legion post of Menlo Park. Good eats, dancing, games and fire works.

W. H. Weeden will attend a meeting of the Republican Committeemen in Monterey Saturday. Mrs. Weeden will accompany him and visit her sister, Mrs. C. E. Thomas, who lives in Monterey.

The city council Wednesday took the first step toward a 50 per cent reduction of business licenses paid by all merchants with a fixed place of business within the city limits.

The council adopted a motion to refer that proposal to the city attorney for his study between now and June 12, when he will report back to the council at its next meeting.

Such reduction of business licenses, when adopted, will fulfil a promise made by the three new council members during their recent election campaign.

The license reduction would apply only to "inside" merchants, and not to those business establishments located outside of Menlo Park but disposing of their merchandise within Menlo Park.

That the 50 per cent reduction proposal will be something of an experiment was indicated, when Councilman Henry Carroll asked James O'Keefe Jr., city attorney, if it would be necessary to change completely the existing license ordinance. "We may find out this (the 50 per cent cut) is not good and return to the present set-up," Carroll said. Councilman Irving Dunne added, "We aren't sure we want to keep it permanent."

The matter of licenses was the only business of interest transacted during an uneventful one-hour council session. The street superintendent received authorization to erect a red stop-light beacon at the "dead" end of the Princeton road-Creek drive intersection as a public safety measure. A petition of resident for a street light at Doyle and Santa Cruz avenues was referred to Councilman W. H. Weeden, commissioner of lights and water, who will take the matter before the county supervisors.

No action was taken on the request of the operator of a miniature automobile racing track for a permit to operate in Menlo Park. The matter was laid over for further study.

Councilman Carroll reported that he has received numerous complaints of automobile speeding on Santa Cruz avenue.

IF your home is using "a strike a match and wait for water to get warm" kind of water heater, you will be wise in having one of the new Automatic Gas Water Heaters installed now.

The installation of an Automatic entails no fuss or muss. It can be safely vented to an existing flue and it is generally not necessary to change the piping.

A small down payment thereafter gives you immediate installation and use of an Automatic. And then you will have on-tap hot water service in kitchen, laundry and bath in an almost unlimited quantity and at a cost that is less per gallon than the water heater you are now using.

Every day you delay in having the service of Automatic Hot Water means time wasted and convenience sacrificed. Modernize your home by having an Automatic installed. Select the model your home needs today.

Hold-up men don't want your Bank of America TRAVELERS CHEQUES

It was pointed out by William J. Quinn, Chief of Police of San Francisco, in one of his recent educational radio talks, "that thieves and hold-up men are rarely so injudicious as to take Travelers Cheques." Thieves know you will notify Bank of America *immediately* if your Travelers Cheques are stolen, and that the police all over the country will be on the watch to arrest the person who tries to cash them.

Bank of America Travelers Cheques are as readily acceptable as cash, if presented by their rightful owner, and are obtainable at any of the 415 branches of Bank of America—or authorized sales agencies.

WHY SUFFER

A minute longer when health is near at hand? Read what this Redwood City man says about Chinese Herbs

Redwood City, Cal., May 29, 1934.

TO WHOM IT MAY CONCERN:

I can recommend Chan & Kong to anyone afflicted with high blood pressure. I was stricken so that I could not do any kind of work. After trying nearly every other known remedy for this disease I continued to become weaker and could hardly walk. My blood pressure still remained much too high. I decided to try the Chinese herb remedies and after seven weeks' treatment my blood pressure is down to normal and I have regained my complete strength and health. I am again back at my work and feeling fine. This was accomplished without putting me on a starvation diet.

It Has Taken Hundreds of Thousands of Enthusiastic Mothers to Make a Little Corner Grocery Store Grow Up Into a Successful Chain of 3277 STORES

It wasn't the men within our organization that built Safeway and Piggly Wiggly stores.

Had not the women folk in 1915 endorsed the policy and performance of our first store—a little corner grocery in American Falls, Idaho—there never would have been a second store. It took the enthusiastic patronage of thrifty housewives to forge and add the links to this great chain.

Today, hundreds of thousands of women are profiting by and endorsing the company's policy of "Distribution Without Waste."

Round-World Flight Planned by Army Man

LOS ANGELES, May 31 (UP)—Confident his sturdy plane could sweep him around the globe in the record time of four and a half days, Lieut. Murray B. Dilley of March Field announced plans for such a flight today.

Dilley said he will leave Oakland June 20 on a non-stop flight to New York, hop off from there for London and in London enter his ship in the London-Melbourne air derby next October. His projected round-the-world flight would start at Melbourne, Dilley said. He expressed confidence he easily could better Wiley Post's time of seven days, 18 hours, 56 minutes.

The Bear Gulch Water Company is at the present time installing six-inch water mains on San Benito avenue in Atherton and on Eighth avenue and Park road in the North Fair Oaks District.

Body of Oriental Washed Up in Bay

The body of an Oriental, evidently washed up from the bay, was discovered in the mud flats at the foot of Bay road this morning by Comi Veita of Redwood City and John Bridges of Mountain View.

Because of the state of the body, which is believed to have been in the water for at least a week, it was impossible to determine the victim's nationality. There apparently were no evidences of violence, according to Deputy Coroner Herman Phillips, who took charge of the body.

The body was clad in a blue blazer and overalls.
